Inspection report shows five of 12 city bridges need replaced

Avenue I bridge replacement set for spring; others on list

BY CHUCK VANDENBERG
PCC EDITOR

FORT MADISON - Fort Madison's public works director Larry Driscoll said five of the city's 12 bridges need to be replaced, according to a 2017 assessment of all the city's bridges. One bridge on Avenue I is set for replacement in the spring and the others are on a waiting list for federal and state funding. The bridge above is located on 27th Street just north of Walgreens and is on the list to be replaced.

Avenue I, near of the intersection of 27th Street, is on the state's funding list to be replaced in the spring. According to a report done by Calhoun-Burns and Associates out of West Des Moines, the bridge rates a three on a scale of 1 to 10 with 10 being the highest rating a bridge can receive. The bridges are rated on three different categories.

"The city has 12 bridges and out of the 12 bridges, five of them are on a list to close and beyond repair," Varley said Monday. "Avenue I was approved last year and that project will start this spring."

That bridge, which was built in 1929, also has a life-remained factor, according to the assessment, of one year, however Driscoll said that has to be taken in context.

"That could stay at one year for the next six years," he said. "Depending on funding levels and where the other bridges in the state are rated, we could be at one year for some time. It's a rating that's given on the context.

FORT MADISON – With the Thanksgiving holiday just around the corner, the Fort Madison Community Thanksgiving Dinner Committee is busy finalizing last minute details. With over 900 meals served to the community last year, the committee is ramping up production in 2017.

Wells was southbound on 290th Avenue and, after being ejected from the motorcycle, Wells struck the road and then transferred to Blessing Hospital in Quincy in critical condition with life threatening injuries.

Phone hotline up and running for dinner delivery orders

The committee appreciates the efforts of the greater Fort Madison business community and Fort Madison Community School District, which partner with them to help make this free event happen. It is the goal of the group to see that no one is overlooked this Thanksgiving, so getting the word out to community members in need, and to those who may not have a family to share a holiday meal with this holiday, is of utmost importance.

Volunteers are needed to chop, mix, bake, count, greet, serve, deliver, setup, and cleanup in various shifts on Tuesday (4 p.m. - 8 p.m.), Wednesday (8 a.m. - 4 p.m.) and Thursday (8 a.m. - 3 p.m.). Volunteer slots are limited so please contact the Community Thanksgiving Hotline to secure your spot at 319-561-0535. Financial donations continue to allow us to bring the free meals to those in the community who otherwise may not have one. All monetary donations go to the Community Thanksgiving Fund and are used for Community Thanksgiving expenses.

As always, suggestions, questions and concerns are welcome.
Please feel free to contact Savanna at chamber@fortmadison.com or contact a volunteer on the hotline phone 319-561-0535.

Pen City Current will list your event in this highly visible CURRENT-LEE section in increments of 25 words for $15. Add a photo for $5. Non-profit organizations are eligible for the reduced rate of $10 per 25 words and $3 per photo. To place your listing, click here or call Lee at (319)371.4125.

FORT MADISON – As the streets of Fort Madison’s Main Street District get ready to kick off the 2017 holiday season, many families, friends and visitors will line Avenue G on November 24th at 6:30 PM, the day after Thanksgiving, to witness the magnificent sight of the Annual Parade of Lights. More than 40 completely lit floats will once again flow through downtown creating a magical Christmas experience for everyone young and old in the anticipation of Santa’s arrival.

Spectators enjoying the parade will get to see many of their favorite floats that make this parade truly a one of kind experience in our area. Floats include a rocking horse, a merry go round, a fireplace with real fire, an American Flag shooting fireworks, a snowman being built, a giant snow globe and of course the Lighted Parade train are just a few of the many lighted floats.

“We have converted almost all the existing floats over to LED the last couple years which has helped with maintenance needs”, stated Thomas Older, 2017 Parade Chair.

“The fire is still under investigation, but Herren said damage is estimated at $25,000 on the structure and somewhere in the range of $5,000 to $10,000 on the contents. He said the point of origin was in the bedroom, but no cause has been identified as of Monday afternoon. The Red Cross has helped the family find temporary accommodations.”

Varley said the next bridge on the city’s list to be replaced would be at Richards Drive and 27th Street, which has a “4” rating and was built in 1951. According to the DOT’s bridge approved funding list, there are 20 bridges ahead of any additional Fort Madison projects. A Montrose bridge spanning a Mississippi River slough is on the approved funding list.

“It’s a far enough down that we keep getting bumped off the list.” Varley said. “The DOT goes down the list until they’re funding is used up and we’re far enough down that we keep getting bumped off the list.”

Varley said the other seven bridges can be repaired and he said the city may try to rehab some of the five that need to be replaced to extend their life until they make the list. Funding the bridge replacement comes from federal, state, and local sources with 75% coming from federal funding through the Federal Highway Administration, 5% from the state Department of Transportation, and the other 20% from city coffers.

The best bridge on the assessment was the Avenue F bridge which scored an “8” with a 50-year remaining lifespan.

The other bridges on the list with less than a “5” include the bridge on 3rd Street in what is known as Happy Hollow; 27th Street and Richards Drive; the bridge between 16th and 17th on Avenue F and the bridge on 27th Street two blocks north of Walgreens. The Avenue F bridge also has a one-year estimated life factor.
