Press release says cut was needed to help with 2023 fundraising commitment

KEOKUK - A restructuring at Lee County Economic Development group has resulted in the elimination of CEO Joe Steil’s position effective immediately.

The group issued a statement Thursday afternoon indicating the group needed to eliminate Steil’s position to help meet the commitments of the group’s 2023 fundraising campaign. Steil was hired in the fall of 2016 to replace Steve Bisienius, who had led the group for more than eight years.

Dennis Fraise, the current chief operating officer for LCEDG said current staff and board will absorb the position.

“I can’t speak to what will happen down the road, but we won’t have a functioning CEO,” Fraise said Wednesday afternoon. “We’re in a transitional phase obviously, and there’s a plan moving forward that Dana (Millard) and I working on, along with the board. We have a good partnership and a great board.”

The decision to eliminate the position came before the City of Fort Madison balked at the final payment in a five-year pledge to the group on Tuesday night. Several city paid and elected officials were not happy with a presentation last month, when Steil clarified some information as to the length of the city’s current funding commitment to LCEDG. However at Tuesday’s meeting, Mayor Brad Randolph said not budgeting the fifth-year commitment to LCEDG was an “oversight” on the city’s part.

Steil was not at Tuesday’s meeting where Fraise addressed the city council on the progress LCEDG is making in the area, highlighting some of key areas of growth and reputation of the group’s state and national-

FSA to disburse $43M to risk coverage enrollees

Additional $392M in CRP payments to Iowa farmers

DES MOINES - USDA Iowa Farm Service Agency (FSA) Executive Director, Amanda De Jong, announced that nearly $43 million will be paid to Iowa farmers that enrolled in Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) for 2017 market downturns. Additionally, Iowa FSA will distribute $392 million in Conservation Reserve Program (CRP) rental payments to landowners for their commitment to conservation stewardship.

"ARC and PLC were authorized by the 2014 Farm Bill to provide reassurance to Iowa farm families who continue to persevere, even in this tough farm economy," De Jong said. "These payments help many farmers maintain their operations and livelihoods during challenging times." According to De Jong, PLC payments have triggered for 2017 barley, canola, corn, grain sorghum, wheat and other crops. In the next few months payments will be triggered for rice, chickpeas, sunflower seeds, flaxseed, mustard seed, rapeseed, safflower, crame, and sesame seed. Producers with bases enrolled in ARC for 2017 crops can visit www.fsa.usda.gov/arc-plc for updated crop yields, prices, revenue and payment rates. In Iowa, 99 counties have experienced a drop in price and/or revenue below the benchmark price established by the ARC or PLC programs and will receive payments.

The disputed contract amount with Maintenance Enterprises LLC, a Louisiana subcontractor, represents about one percent of the total work involved in this project. We are considering what legal options are appropriate at this time." Court records indicate Orascom E&C USA breached a contract when it fired Maintenance Engineers in October 2015, and refused to pay for work or allow the company to retrieve tools and some equipment from the site. Green Oak started with fertilizer plant news

Like this happening is inspirational because we can actually build new homes and people will buy them and occupy them and I think it will help rejuvenate the economy. It really speaks to the community spirit here,“ said Dennis Fraise, Chief Operating Officer with Lee County Economic Development Group.

The Woodland Heights condominiums have two- and three-car garages. Three of the buildings have three condos each, while seven of the buildings have two units each. Three of the two units are single level on grade and the rest are split levels with walkout basements. All the condos are maintenance-free and are situated around a pond that has been stocked with fish and has a gathering area with led lighting along the decorative fencing that borders the pond.

“The image is the empty nesters and retirees, but the truth is we've got a couple executives up here and the doctors that work 65 hours a year, they don’t want to mow the lawn. This is responding to the professionals as much as anything,” Mohrfeld said.

For more information on the properties, visit Green Oak’s Facebook page or visit their website.
